Scholastic Chess Workshops

Learn to play the game of chess! This is for players that want to learn new strategies and ways to win as well as other chess “secrets”. Beginners are also welcome (those that do not know how to play at all) but the camp is designed for children with novice to advanced skill levels.

Chess is a fascinating game, which can be played and enjoyed at all levels. Educational research indicates evidence of a strong positive correlation between chess and student academic performance. The practical application of the skills learned while playing chess are the same skills necessary for academic excellence and lifelong success:

- **Concentration**
- **Critical Thinking**
- **Problem Solving**
- **Strategic Planning**
- **Creativity**
- **Pattern Recognition**
- **Analysis**
- **Evaluation**
- **Competition**
